ANNIVERSARY
CELEBRATION

A photograph of an industrial facility. A yellow overhead crane is lifting a large, yellow, rectangular bag (likely a bulk bag or tote) using purple lifting straps. The bag has the number '1482 P' written on it. The crane is mounted on a yellow beam. In the background, there are metal structures and a yellow wall with a circular vent. A red and yellow graphic overlay is on the left side of the image, containing a table of contents.

COMPANY OVERVIEW

Nirmal Fabricators has been a major player in the Engineering and Fabrication Industry for 25 years. Since our founding in 1997 Nirmal Fabricators has steadily grown to specialize in all aspects of industrial, commercial & domestic works, both in engineering & construction industry. Our Company has earned its place in today's competitive market through our consistent delivery of superior services & quality end products. We provide real value to all our clients by achieving the best in the industry results & the highest level of professionalism in every service, project & structure we deliver. The individualized care & unwavering attention that we bring to all our projects are deciding factors in why our clients continuously choose us.

We are based in Nairobi, our main workshop & store facilities are located at Road A, Kibo Street, off Enterprise Road in Industrial Area.

VISION

To be recognized as the industry leading service company - Known for our dedication to excellence in everything we do.

MISSION

We aim to provide only the highest quality services & product while remaining competitive to our clients. We have consistently constrained ourselves to high work ethics, workmanship, laws, regulations & fair play in all our projects to ensure that each of our products propel us to new levels in customer confidence, our experience & our own sense of pride and satisfaction.

OVERHEAD CRANES

Nirmal Fabricators Ltd Over-Head Crane is used to lift loads in various environments, such as factories, warehouses, stockyards etc. We offer a range of Over-Head Cranes suited for your requirements & needs. Every crane is custom designed for every client starting from analysing the site to the lifting requirements based on client's uses & we further advise on the best option & design. Nirmal cranes are with lifting capacity from 250kg up to 200 Tonne.

Nirmal Fabricators Ltd offers a variety of Material Handling Solutions-

- Single Girder Crane
- Double Girder Crane
- JIB Crane
- Gantry Crane
- Semi-Gantry Crane
- Underslug Crane
- Stackers

SINGLE GIRDER CRANE

We manufacture Single Girder Overhead Cranes in SWLs ranging from 250kg to 20MT in different configurations. Beam / Box type main girders (dependent on spans). These cranes can be of referred either with an Electrically Operated Trolley (EOT) or a Hand Operated Trolley (HOT) depending on the client requirement. The standard range of Electric Wire Rope Hoists is used on these cranes. Precise control of the up / down motion and / or travel motion can be achieved by fitting Variable Frequency Drives in the panels (optional). Control can be either through a Pendant Push Button station or a Radio Remote Control (optional).

DOUBLE GIRDER CRANE

Double Girder Overhead Cranes in SWLs ranging from 1MT to over 200MT. These cranes incorporate fully customised open winch type crabs. Nirmal can supply fully customised Double Girder Cranes as per the client requirements for different duty cycles & for diverse range of applications. Double Girder Cranes can be given for a very large range of spans, a large of heights of lift as well as a large range of speeds. With the double girder structure, the crane has sufficient strength, rigidity & stability.

JIB CRANE

Jib cranes assist the staff & multiply human efforts, handling loads up to 6300kg precisely & effortlessly. Jib cranes are useful especially for loading or unloading of workpieces on machine tools. These are also useful for loading or unloading of trucks. They can also become an inseparable part of a standalone workstation & machine assembly area.

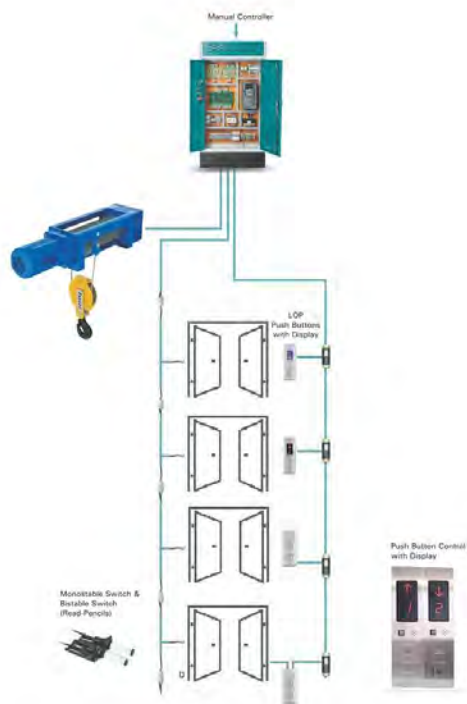

GANTRY CRANE

Available in a Double or Single Girder version, Gantry Cranes are a varied option for many work sites. We carry both double & single girder gantry cranes for East Africa. The single girder ranges from 1 to 50 MT capacity, while the double girder version ranges from 5 to 160 MT. Pictured is a double box girder gantry with the hoist crab unit running on rails attached to the top flange. Support columns are attached to the bridge structure to enable the crane to run along ground tracks. Catering for spans up to 40 meters.

NORMAL GOODS HOISTS

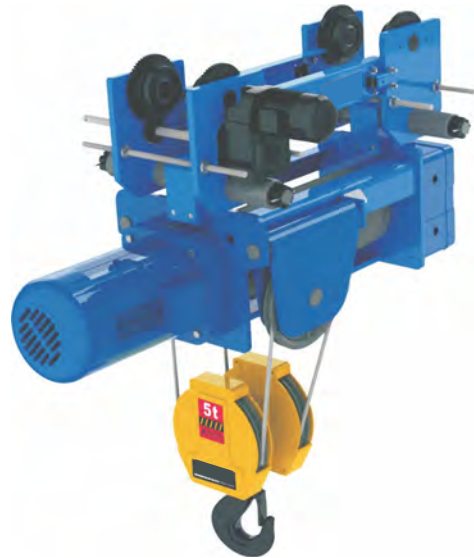

Goods Hoist is a heavy duty well engineered lift specifically designed to hoist heavy goods between levels. They are popular in warehouses, distribution centers & factories. We offer a range of goods hoists with rated loads from 500kg upwards. Our focus is on giving a well-manufactured goods hoist that ensures maximum safety & functional efficiency.

As a leading supplier in the related markets, we provide excellent after sales services, catering for the needs of our customers throughout the region. We have an experienced engineering team in designing standard equipment or custom-made solutions for local markets. We are committed to provide immediate response towards solving all your material handling enquiries.
